Profile

Creative and results-driven Frontend Developer with expertise in Flutter, web development, and UX/UI design. Skilled in building scalable, user-friendly applications and translating concepts into seamless digital experiences. Experienced in collaborating with cross-functional teams and delivering impactful projects. Seeking challenging roles in Frontend, and Fullstack development to leverage my skills.

Skills

Frontend: HTML, CSS, JavaScript, Flutter, Bootstrap, Figma, React.js

Backend: Node.js, PHP Laravel

Databases: MySQL, Firebase, MongoDB,

Other Tools: Java, C#, Python, Git, GitHub, REST APIs,

Experience

Frontend Developer Trainee – National Telecommunication Institute (NTI)

Alexandria | Jul 2025 – Sep 2025

- Designed and developed 10+ user-friendly websites with cross-browser compatibility.
- Applied usability testing and iterative feedback to improve functionality.
- Applied JavaScript fundamentals and DOM manipulation for interactivity.

UX/UI Designer Trainee – Digital Egypt Pioneers Initiative (DEPI)

Oct 2024 – May 2025

- Designed 5+ mobile and web UIs, wireframes, prototypes, and high-fidelity designs.
- Conducted user research and usability tests to enhance product experience.
- Collaborated with developers to ensure design-to-development consistency.

Mobile App Developer Trainee – Route Academy

Alexandria | Oct 2024 – May 2025

- Built 5+ cross-platform mobile apps using Flutter and Dart.
- Developed projects with state management, API integration, and responsive UIs.
- Applied clean architecture practices for scalable app development.

.NET Developer Trainee – Information Technology Institute (ITI)

Alexandria | Jul 2023 – Sep 2023

- Built desktop applications using C# and .NET Framework.
- Integrated databases with SQL Server and applied OOP principles.
- Developed a .NET Core MVC Employee Management System for HR operations.

Projects

E-Commerce Mobile App – Flutter, REST APIs, Provider

- Built a production-ready e-commerce app with secure authentication, product listing, and cart management.
- Integrated REST APIs for dynamic product data and applied Provider for efficient state management.

Taskly – Task Management App

- Designed a productivity-focused app with user flows, wireframes, and high-fidelity.
- Delivered an intuitive navigation and clean UI for task organization.

Portfolio Website

- Developed a fully responsive personal portfolio website.
- Ensured usability across devices and browsers with responsive design principles.

IEEE PUA SB Official Website – Flutter, Firebase

- Designed and co-developed the official IEEE PUA Student Branch website with event and project management.
- Built an admin dashboard with CRUD functionality and deployed for production use.

Java Supermarket Billing System

- Developed a billing system with invoice generation, product management, and automated calculations.
- Applied OOP principles and file handling for efficient operations.

HTML Kids Learning Website – HTML, CSS, JavaScript

- Created a gamified website teaching kids HTML basics.
- Integrated animations, quizzes, and educational games to boost engagement.

Education

Pharos University, Alexandria — BSc in Computer Science & Artificial Intelligence

Oct 2022 – Jun 2026 | GPA: 3.73

Coursework: Software Engineering, Web Programming, Database Systems, AI, ML, Data Structures, Algorithms
